## PROFILE

I'm an ambitious and highly motivated person who's very keen to learn new concepts and methods. I have a friendly and bubbly character thus I have no problems working in a team or communicating with customers. I'm looking to build on my experiences and further improve my skill set.

## WORK EXPERIENCE

### Software Developer

BELLA CAFE

FEB 2022 - CURRENT

- Using C#, PHP, and .NET, I designed, implemented, and managed software programmes to the specifications of the company
- Built Point of Sale systems and Inventory Management Systems using clean and efficient code for maximum speed and performance
- After deployment, I tested and evaluated the system's performance. Adding new programmes and features when required
- Maintained existing software through debugging and troubleshooting

### Junior Web Developer

MTC CONSULTANCY

JAN 2021 – FEB 2022

- Created user-friendly web pages using the companies preferred coding language which was WordPress
- Implemented mobile-based features
- Optimized site for maximum speed
- Maintained site post deployment through debugging
- Gained deeper understanding of the entire web development process (design, development and deployment)

## TUTOR

Explore Learning

JAN 2016 - SEP 2017

- Taught children maths and English from the ages of 5-14 years old
- Involved in teaching children new concepts using individualised methods and specific feedback
- Worked in a team to organise and lead extra-curricular workshops for members to further their understanding of concepts
- Encouraged 'buddy system' between members of different ages to aid student development and enthusiasm for learning
